

The K-LOVE radio network provides valuable programming for my family and community. We live outside any major city or town, so our radio options are limited. The encouraging and upbeat Christian music and helpful messages K-LOVE broadcasts are a big part of our day. The influence on the community of having good Christian broadcasting available 24 hours a day is immense. I know lots of people around here who listen and appreciate K-LOVE. If they were displaced by an LPFM broadcaster, our community would be much the poorer for it. The life-changing and life-affirming message of the music and the talk on K-LOVE has encouraged many listeners in tough times. I ask that you now allow K-LOVE, heard on 106.7FM in our area, to be hindered in its broadcasting by LPFM or any other signals. Thank you very much for your time and attention.
